Technology

PROJECTS

MarcNavy Web-based Countdown Timer

A web-based timer designed to track and count down to exciting events and special occasions.

MarcNavy QR Code Generator

web-based QR code generator that allows users to generate scannable codes for URLs, text, and email, enhancing accessibility and sharing.

AgriConnect Mobile Application

Developed as a capstone project to directly connect farmers and businesses, facilitating efficient communication and transactions.

AgriConnect Landing Page

Part of our capstone project, this landing page was designed for the AgriConnect mobile app to showcase its features and highlight its benefits.
